MESSAGE FROM THE A/ CEO

Dear Readers,

It is with great pleasure that I present you with the second edition of our newsletter. I sincerely encourage you to read the important information enclosed in this newsletter regarding programme updates and achievements over the last four quarters.

EDC spearheads the implementation of the national Entrepreneurship Development Program (EDP), a joint programme funded by UNDP Ethiopia and administered by the Government of Ethiopia. EDP seeks to strengthen institutional capacity; promote entrepreneurship competencies and skills across the country through entrepreneurship development trainings; and provide mentorship through business development advisory services to entrepreneurs. The center also identifies and proactively engages with stakeholders through dialogues aimed at creating awareness and solutions to address institutional, policy and market constraints that inhibit the establishment and growth of micro and small enterprises in the country.

The last four quarters mark a time in which EDC continued to work towards realizing its missions. Once again in November 2015, EDC hosted Ethiopia’s Global Entrepreneurship Week (GEW) by coordinating several awareness creation events throughout the country. EDC launched its Rural Entrepreneurship Training programme targeting micro enterprises and model farmers operating in rural communities. EDC scaled up its provision of various entrepreneurship training programmes to diverse target beneficiaries to enhance entrepreneurial competencies of thousands of existing and potential entrepreneurs. In addition, EDC largely invested in its trainers through certification workshops that made them National Entrepreneurship Trainers and National Master Trainers for Ethiopia with support from the United Nations Conference on Trade and Development (UNCTAD).

The period also marked the time in which EDC restructured the business development advisory services provision provided to entrepreneurs. The new model will ensure effectiveness and efficiency in the service. EDC has now completed the process and launched the new BDS business model as of September 2016. In addition, through a partnership with Microsoft 4Africa, EDC coordinated the deployment of international Microsoft executives to provide training and mentorship to select clients across the country on marketing strategies, business branding and growth, client management, as well as sourcing partners and funding.

The Centres of Excellence for Entrepreneurship that EDC helped establish in the five public universities (Adama Science and Technology University, Addis Ababa University, Bahir Dar University, Hawassa University, and Mekelle University) are now providing business incubation and development services to university students and the community at large.
EDC organized two Innovation for Development Breakfast Meetings with a focus on women innovators and rural energy technology. Both events brought together prominent stakeholders working in the respective fields and provided a platform to shed light on some of the significant challenges and opportunities facing the innovators in their sectors.

EDC moved to strengthen its institutional capacity by adding core and support staff at all regional coordination offices and the headquarters in Addis Ababa. Through all the stakeholder engagement activities, EDC is strengthened and equipped to lead the development and competitiveness of micro and small enterprises in Ethiopia.

In closing, I would like to thank all our partners including the Government of Ethiopia, donors, and stakeholders across the different sectors. Your sustained patronage is greatly valued and appreciated. Together we can make a difference.

Happy reading!

Dugassa Tessema
Acting Chief Executive Officer
EDC-Ethiopia

2015 GLOBAL ENTREPRENEURSHIP WEEK

EDC, once again, hosted the Global Entrepreneurship Week (GEW) in Ethiopia with the theme “Make it Happen”. The celebrations took place from 16 – 22 November, 2015. EDC chaired the host committee meetings which culminated in the organization of a number of thematic events held throughout the country. These GEW events which were broadcasted in various local media channels, sparked up nation-wide dialogue on the role of entrepreneurship in sustainable development.

During the week, EDC also held simultaneous ETW training exclusively for 200 women in Addis Ababa, SNNP, Oromia, Tigray, and Amhara regions. Tapping into the national plasma screen education system, EDC developed an informational video to spark interest for entrepreneurship among young Ethiopian students. 1,180 public schools all over the country participated in the weeklong screening which was made possible through a partnership forged with the Ethiopian Educational Information and Communications Bureau.

The GEW celebrations ended with a reception and Entrepreneur of the Year Award ceremony. The award was given to a Young Entrepreneur of the Year and a Seasoned Entrepreneur of the Year. The award recipients were fashion designer Hiwot Gashaw and industrialist Bekele Tsegaye respectively. Our partners from the governments of Ethiopia and Canada as well as UNDP, academic researchers, business owners, EDC clients among other stakeholders attended the award ceremony.

UPDATE ON THE CENTRE OF EXCELLENCE FOR ENTREPRENEURSHIP

EDC launched its first Centre of Excellence for Entrepreneurship (CoEE) housed in Hawassa University in December 2015.

In lead up to this milestone EDC, UNDP, the Federal Urban Job Creation and Food Security Agency, and the Ministry of Education held a dialogue on the vision, functionalities and expected outcomes for each CoEE in October, 2015.

The retreat provided an opportunity for the Centres to provide an update on activities that have taken place as well any challenges that have been encountered. In addition, the retreat allowed all stakeholders involved to develop joint action plans for successful operationalisation of the Centres.
In total, there are five CoEEs harboured at Adama Science and Technology University, Addis Ababa University, Bahir Dar University, Hawassa University, and Mekelle University.

The 9th Innovation for Development Breakfast Meeting took place on September 6, 2016. The meeting focused on rural energy technology as it exists in Ethiopia. Participants deliberated on existing rural energy innovations and looked into opportunities for scaling up entrepreneurship in the sector through capacity building and grant awards.

**INNOVATION FOR DEVELOPMENT BREAKFAST MEETINGS**

Two breakfast meetings have been held so far this year – one focused on women innovators and the other on the local rural energy technology landscape.

Marking the International Women's Day on March 8, 2016, EDC hosted the 8th Innovation for Development Breakfast Meeting under the theme “Planet 50-50 by 2030: Step it up for gender equality” - bringing focus on achieving gender parity by the year 2030. The breakfast meeting convened women innovators and entrepreneurs to discuss their prospects and challenges. Panel members included Dr Emezat Mengesha, Lecturer and Former Head of the Center for Gender Studies, Addis Ababa University; W/ro Mulu Lorri, Vice President, AWEP; W/rt Hiwot Gashaw, Owner, Abugeda Fashion and Winner of the Emerging Entrepreneur of the year award for GEW 2015; and W/ro Yilfigne Abegaz, National Programme Coordinator, UN Women.

The meeting further celebrated women through an exhibition that showcased women-led businesses. Women featured at the exhibition produce a wide range of products some of which are food items, organic detergent, energy saving earthenware stoves and home utility storage products.

The 9th Innovation for Development Breakfast Meeting took place on September 6, 2016. The meeting focused on rural energy technology as it exists in Ethiopia. Participants deliberated on existing rural energy innovations and looked into opportunities for scaling up entrepreneurship in the sector through capacity building and grant awards.

**YOUNG ENTREPRENEURS TRAINED AND PROVIDED MENTORSHIP BY MICROSOFT EXECUTIVES**

Microsoft 4Africa entered into a capacity enhancement support agreement for the Entrepreneurship Development Programme (EDP) in 2014.

As part of this agreement, 59 young men and women entrepreneurs took part in the second Build Your Business (BYB) training session held in Addis Ababa and Mekelle in April 2016. Prior to this, BYB sessions were held in Bahir Dar and Hawassa in 2015. The BYB training seeks to develop the knowledge and skills of those looking to sustain existing businesses as well as those wishing to start a new micro and small enterprise. The training was provided by Microsoft executives from the United States and South Africa.

In addition, four Microsoft executives from Europe and Asia travelled to Ethiopia to provide mentorship to EDC clients between May and July. The mentors...
had various areas of expertise including youth/female entrepreneurship development, service sector, fashion, customer relationship management and sell-in, restaurant management, search engine marketing, social media marketing, as well as customer and web analysis. The mentors met with entrepreneurs in Addis Ababa and the regional cities of Bahir Dar, Hawassa, Mekelle, and Adama. They mentored a total of 32 EDC clients during their stay in the various locations. Two of the mentors also conducted capacity building workshops for EDC and UNDP staff on customer relations management and a Microsoft corporate communications tool called Yammer respectively.

All the trainees and mentees are already benefiting from Business Development Services provided by EDC.

ENTREPRENEURSHIP TRAINERS CERTIFIED BY UNCTAD

Over the past year, EDC’s trainers have undergone two certification programmes, namely National Entrepreneurship Trainer and National Master Trainers, certified by UNCTAD. The trainers are business owners as well as educators from Addis Ababa, Haswassa, Mekelle, Bahir Dar, Haramaya, and Wollega universities.

The first certification took place from August 10 - 21, 2015 where nineteen local entrepreneurship trainers who have been facilitating entrepreneurship training workshops for more than a year have were certified as National Entrepreneurship Trainers by UNCTAD.

The second certification took place from September 28 – October 1, 2016 where twenty local entrepreneurship trainers were certified as National Master Trainers by UNCTAD. The certification was conducted by lead facilitators from UNCTAD offices in Brazil, Zimbabwe and Switzerland. This certification program will enable the trained to coach and develop other local Trainers of Trainers and also assess training delivery performance. This capacity will be of great value to EDC’s mission in the country.

In the near future, a fourth and final certification called International Master Trainers will allow the trainers to travel anywhere in the world to deliver the entrepreneurship training workshop module.

Restructure of Provision of Business Development Services

In order to streamline the Business Development Services (BDS) delivered to clients, EDC has restructured the model to ensure effective and targeted services. Through an assessment of clients and other BDS models from different organizations (both local and international), EDC has begun delivering services to clients through a combination of group training sessions as well as customised one-to-one sessions. The group training sessions will focus on: business plan preparation, accounting and finance, marketing, business operations and HR, and startup-toolkit. Clients can sign up for group sessions upon completion of the EDC training programme. Clients can also apply for one-to-one services upon completion of the EDC training programme, their applications will be screened accordingly. The one-to-one sessions are reserved for high growth potential entrepreneurs who already have the foundations of their business and are looking to take their enterprise to the next level of competitiveness through exporting, diversifying their products, expanding their market penetration, opening up new branches, etc.

Microsoft executives from South African and America host a Build Your Business (BYB) training session held in Addis Ababa in April

Pictured here are the twenty National Master Trainers who successfully completed the certification by UNCTAD. The picture also includes the 2 international trainers from Zimbabwe and Brazil, as well as representatives from UNDP and EDC.

NEWSLETTER OF THE ENTREPRENEURSHIP DEVELOPMENT CENTRE (EDC)-ETHIOPIA, VOL.2, SEP. 2016
entrepreneurship award is expected to be announced by September 2015 and interested entrepreneurs are encouraged to follow up on www.et.undp.org for more news as well as videos featuring the 2015 award winners.

**EVENT UPDATE**

**THE ENTREPRENEURSHIP AVENUE: A PATH TO ECONOMIC DEVELOPMENT**

On May 27, UNDP and EDC co-hosted an event that showcased results achieved through the Entrepreneurship Development Programme (EDP) in its first three year phase which comes to an end in 2016. The event provided a high level overview of EDC and its accomplishments. Select entrepreneurs shared personal experiences on their engagement with EDC by way of training and BDS. H.E. Ato Mekuria Haile, Minister of Urban Development and Housing at the time, was introduced to an array of products EDC clients produce. The mini exhibition put one of the clients’ learning into practice – use every marketing opportunity when relevant – some of the clients were able to sell some of the merchandise to event attendees.

**EDC BY THE NUMBERS**

The table below provides a snapshot of EDC’s achievements to date.

**UPCOMING EVENTS**

**TRAINING:**

**Entrepreneurship Training Workshop (ETW):**
- Oct. 3 – 8, 2016: Debrebrehan, Sebeta, Woliso, & Mekelle
- Nov. 14 – 19, 2016: Addis Ababa, Nekemte, & Wolaita Sodo
- Nov. 28 - Dec. 3, 2016: Addis Ababa, Bishoftu, Gimbi, Hawassa, Bahir Dar, & Wukro

Customized Training:
- Oct. 3 – 4, 2016: Woldia
- Nov. 16 – 17, 2016: Wolaita Sodo
- Nov. 30 – Dec. 1, 2016: Wukro
- Dec 12 – 13, 2016: Bahir Dar

**Women Entrepreneurship Training:**
- Nov. 14 – 19, 2016: Mekelle
- Nov. 16 – 17, 2016: Bahir Dar

**Rural Entrepreneurship Training:**
- Oct. 17 – 19, 2016: Bishoftu & Dessie
- Oct. 26 – 28, 2016: Adama & Alamata
• Nov 7 – 9, 2016: Shashamane, Mekelle, & Gondor
• Dec. 5 – 7, 2016: Batu & Bahir Dar
• Dec 12 - 14, 2016: Meki & Woldia

Youth Entrepreneurship Training:
• Oct. 7 – 8, 2016: Hossana
• Oct. 21 – 22, 2016: Addis Ababa
• Nov. 29 – 30, 2016: Wukro

Government Capacity Building Training:
• Oct. 3-8: Adama & Bahir Dar
• Dec. 12 – 17: Hawassa

Other Events:
• November 14 – 20: Global Entrepreneurship Week 2016
• December (exact date TBD): 10th Innovation for Development Breakfast Meeting

Welcome to New Staff
We would like to provide a warm welcome to the following staff who recently joined EDC:

• Saron Befekadu, Front Desk Receptionist, EDC Headquarters
• Billion Kefelegn Lemma, Program Assistant, EDC Headquarters
• Wondossen Tsegaye, Monitoring and Evaluation Specialists, EDC Headquarters
• Fetene Alemu, EDC Regional Coordinator, Oromia Region
• Yeshi Alemu, Administrative Assistant, Oromia Region
• Mergia Muleta, BDS Coordinator, Oromia Region
• Lemlem Sendeku, Administrative Assistant, Amhara Region
• Ageru Tadele, BDS Coordinator, Amhara Region
• Genet Assefa, Administrative Assistant, SNNP Region
• Abraham Nathanael, BDS Coordinator, SNNP Region
• Goitom Abadi, BDS Coordinator, Tigray Region
• Elsa Amare, Administrative Assistant, Tigray Region

NEWSLETTER OF THE ENTREPRENEURSHIP DEVELOPMENT CENTRE (EDC)-ETHIOPIA, VOL.2, SEP. 2016

Proclaim. "The power within, the potential within, the possibility within. We are capable. We are strong. We are resilient."

In the newsletter of the Entrepreneurship Development Centre (EDC)-Ethiopia, Volume 2, September 2016, the theme is Empowered lives, Resilient nations.

The newsletter highlights the importance of empowering individuals and fostering resilience at the national level.

Key points include:

- The power of individuals to make a difference.
- The potential for growth and development.
- The possibility of overcoming challenges and obstacles.
- Emphasizing the strength and resilience of people.

The newsletter also reflects on the achievements and milestones of the EDC-ethiopia.

In summary, the newsletter conveys the message that everyone has the power within to make a positive impact, and this empowerment leads to resilience and growth at both individual and national levels.
